

Alpha Awning Series - Information

Our Alpha Awnings are Australian made and developed. They are designed to suit the latest architectural designs/trends. These awnings have been specifically made to withstand the Australian climate and are built to last. These awnings are available in a range of styles that compliment any alfresco entertaining area.

Styles of Alpha awning you have available to you are: Straight Drop, Cable Guide, Deep Channel, Pivot Arm & Side Retention System.

Each style of Alpha awning is capable of covering widths up to five metres, making it the most versatile awning on the market, to date.

Awnings are a great outdoor blind, with various styles to suit your needs. They can help you maximise your heat and light protection, helping to reduce your bills, as they can reflect up to 70% of heat before it touches the window.

Awnings can be used to protect your windows and entertaining spaces from the elements, along with the protection of your home carpets and furnishings from being faded by the sun.

With our Alpha Awning you have 3 material selections to pick from: Clear P.V.C - to help protect you from the wind, Light Filtering - to help reduce the wind, dust, rain, hail and sun that comes through into your outdoor spaces & Block out fabrics - to darken and enclose your spaces, a nice substitute to having indoor blinds.

Each style of Alpha awning is capable of covering widths up to five metres, making it the most versatile awning on the market, to date.

Our Turn Around Time is: 4 Weeks approx.
Depending on fabric stock.

Automatic Awnings Information

The Automatic Awning is a convenient, effective awning that you can raise and lower to any level on your windows by simply sliding the arms along the guide rods. With this style design you have maximum light control for your home. With this system you can have the guide rods close to the window which will give you maximum heat and light protection while still allowing air flow into your own home.

Awnings are a great outdoor blind, with various styles to suit your needs. Awnings can help you maximise your heat and light protection, helping to reduce bills, they can reflect up to 70% of heat before it touches the window. If you install awnings to each window of your property, it can help to reduce your energy bills. Awnings can be used to protect your windows and entertaining spaces from the elements, along with the protection of your home carpets and furnishings from being faded by the sun.

You have different fabric options available for the styles of awnings that we provide: Canvas, Acrylic, or Mesh

If you don't like the Automatic Awning there are many other options available through The Blind Man Company such as: Convertible, Fixed Guide, Multistop, Patio, Folding Arm, Pivot Arm Awnings & Zipscreens.

Office Opening Hours:

Monday to Friday: 9am close 4pm

Saturday: 10am close 2.30pm

Closed Public Holidays

Folding Arm Awnings Information

The Folding Arm awning is an effective option for adding shade to windows and outdoor entertaining spaces, as well as protecting windows from the harsh glare from the sun which reduces the heat affecting your home in Summer. The Folding Arm awning operates by hinging out from the wall, acting like an additional roof, to shade your windows or to extend your outdoor entertaining spaces.

As effective as this awning is, we do recommend that you retract it in high winds, to minimise any damage that may be caused to the awning & your home.

Awnings are a great outdoor blind, with various styles to suit your needs. Awnings can help you maximise your heat and light protection, helping to reduce your bills, as they can reflect up to 70% of heat before it touches the window. Awnings can be used to protect your windows and entertaining spaces from the elements, along with the protection of your home carpets and furnishings from being faded by the sun.

With our Folding Arm Awning you have 2 material selections to pick from: Light Filtering - to help reduce the wind, dust, rain, hail and sun that comes through into your outdoor spaces & Block out fabrics - to darken and enclose your spaces, a nice substitute to having indoor blinds.

Patio Awnings

Information

The Patio Awning is a great solution for closing off patio and pergola spaces, to protect you and your guests from the elements. They can transform any outdoor entertaining space, into an extension of your living spaces. They are designed to keep out the chilly winds and to help reduce the blur of the sun, providing you with an outdoor entertaining space, fit for all year round.

This style of awning allows you to choose from strong, clear PVC, to light filtering and Block out fabrics, you are sure find one to suit your needs.

Pivot Arm Awnings Information

Pivot Arm Awnings are an effective option for any hard to reach windows, and work for most styles of windows, in any location. The way the Pivot Arm Awning works is they pivot in an arc, this makes the fabric extend and retract across the entire window span. This will shade the window but also allows space between the window and the awning, which allows the air to circulate quite effectively through your home, and it also ensures you can still open your windows to let that summer breeze in.

Zipscreen Awnings Information

The Zipscreen Awning is specially designed for outdoor entertaining spaces, such as balconies, pergolas, and verandahs. This product best suits these areas due to its ability to provide you with privacy, protection from the sun, wind, rain and keeps the insects out all year around.

The Zipscreen is ideal for your home and office windows as they serve as a modern, sleek and durable/secure alternative to the more traditional style of awnings.
