

iKlass Blinds Information Brochure

The iKlass Blind is the contemporary take on the more traditional Roller Blind. With the option of light filtering or room darkening fabrics, you are sure to find the desired look for your home.

This revolutionary new roller blind allows you to maintain your view while protecting your privacy. It combines a stylish curved fascia with chain control.

By it's ability to modulate the amount of sunlight during the daylight hours, or provide the opportunity of a closed blind to avoid prying eyes, iKlass blind provides protection and privacy for your home or office, with the ease of 1 blind & 1 control.

iKlass blinds may just be the innovation that takes home and office window furnishings one step further.

The unique bottom rail mechanism promotes smooth and effective operation. While this remarkable new blind offers you UV and heat protection.

As beautiful as these blinds are there are some areas that the iKlass blinds aren't recommended for such as:

- Very windy locations, where windows are left open.
- Locations that expose the blind to continual moisture – the blind will eventually develop mildew.

Additional information:
